JOANNA@CREATEDBYJOANNA.COM**

I have over 10 years experience in interactive design with a wide variety of experience — from creating lasting brand identities to fixing broken hyperlinks. I love enabling those I work with to be their best by being a mentor and leader thru a positive sense of team. I'm in my element when given a puzzle to put together, be it visually, technically, or strategically. Working with a variety of clients in mostly high-paced, high-profile companies, I've developed a sharp eye for layout relations, design, color & branding components. Technically savvy, I do not shy away from new ideas nor directions. I believe creativity is not limited to artistic expression — it is remaining open to all possibilities of improvement.

EXPERIENCE

CREATIVE DIRECTOR @ SMALL WORLD LABS — AUSTIN, TX. — 4/2008 to PRESENT

Overseeing entire creative direction for online social networking solution. Collaborating with clients such as the American Heart Association, Belifenet, Complex Magazine, the San Diego Union-Tribune, the American Cancer Society and The Dallas Morning News to ensure overall creative, UI, and visual direction is executed effectively. Managing multiple freelancers and designers. Working with web developers to ensure design standards are implemented correctly thru html and css. Shaped and developed company design process.

FREELANCE GRAPHIC DESIGN & MANAGEMENT @ CREATEDBYJOANNA.COM — AUSTIN, TX. — ONGOING

Clients include Pandora, Modality Inc., Yoga Tree San Francisco, Netscape, The WB, and Barclays Investment. Available for short term design projects or longer term management and direction projects. Specializing in web design, advertisement, and identity building.

APPLE INC. — CUPERTINO, CA. — 08/2001 to 04/2007

SENIOR DESIGN MANAGER @ APPLE— 02/2006 to 04/2007

Directing the overall visual and UI design of www.apple.com/education. Daily coordination of both external and internal designers, engineers, Apple corporate and marketing managers juggling numerous projects to create websites to tie in with Apple's high level of design and branding marketing strategies. Directly in charge of internal design and HTML/CSS production team.

ART DIRECTOR @ APPLE — 03/2003 to 01/2006

Effectively executed education website visual and organizational redesign. Designed comps and mock ups for various marketing websites, tiles, and banners. Organized and directed photography shoots. Extensive HTML & CSS coding, animation, and file management. Developed intelligent user-interfaces for PHP based applications. Brochure & flyer creation.

WEB DESIGNER @ APPLE — 08/2001 to 02/2003

Coding, designing, and managing company intranet site; HTML & CSS production and design of webpages.

WEB INTERFACE DEVELOPER @ PETS.COM — SAN FRANCISCO, CA. 10/1999 to 11/2000

Worked closely with internal clients, producers, engineers and designers in a fast-paced start-up environment to create and produce design comps to fulfill editorial and marketing needs. This included slicing, optimizing, and creating graphics; creating Photoshop design comps, hand-coding HTML, JavaScript and Perl, and working team members in order to achieve the best possible results.
